

creating inclusive classrooms effective pdf

Inclusion in education refers to a model wherein special needs students spend most or all of their time with non-special (general education) needs students. It arises in the context of special education with an individualized education program or 504 plan, and is built on the notion that it is more effective for students with special needs to have said mixed experience for them to be more ...

A flipped classroom is an instructional strategy and a type of blended learning that reverses the traditional learning environment by delivering instructional content, often online, outside of the classroom. It moves activities, including those that may have traditionally been considered homework, into the classroom. In a flipped classroom, students watch online lectures, collaborate in online ...

Summarizing teaches students how to discern the most important ideas in a text, how to ignore irrelevant information, and how to integrate the central ideas in a meaningful way. Teaching students to summarize improves their memory for what is read. Summarization strategies can be used in almost every content area.
