Urban sprawl or suburban sprawl describes the expansion of human populations away from central urban areas into low-density, monofunctional and usually car-dependent communities, in a process called suburbanization. In addition to describing a particular form of urbanization, the term also relates to the social and environmental consequences associated with this development.

Urban sprawl - Wikipedia

Digital geologic mapping is the process by which geological features are observed, analyzed, and recorded in the field and displayed in real-time on a computer or personal digital assistant (). The primary function of this emerging technology is to produce spatially referenced geologic maps that can be utilized and updated while conducting field work.

Digital geologic mapping - Wikipedia

6 User Experience Similar to a need for a location encoding standard, there also needs to be able to interact, visualize and reason about the data with an advanced user experience.

FOAM Whitepaper

Public Housing Physical Inspection Scores. Description: HUD's Real Estate Assessment Center conducts physical inspections of properties that are owned, insured or subsidized by HUD, including public housing and multifamily assisted housing. About 20,000 such inspections are conducted each year to ensure that assisted families have housing that is decent, safe, sanitary and in good repair.

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.
